UnderwritingCenter™
Underwriting Automation and Intelligence

Integrated Tools & Survey Management

UnderwritingCenter™

By integrating rich property, eligibility, and hazard data with our workflow automation platform, UnderwritingCenter™ simplifies processes to ensure underwriting efficiency and improve the agent and policyholder experience.

Underwriting Center Benefits:

- **Process Efficiency.** Driven by risk-appropriate straight-through processing and exception management.

- **Reduced Underwriting Expenses.** Automation in data collection, workflows, and vendor reconciliation reduces expenses and improves productivity.

- **Workflow Modernization**. Automation with minimal IT resources and expedited implementation timing (UAT ready +/- 90 days).

- **Data Supported Insights.** Make business decisions based on increased data and analytics.
