FLOOD SOLUTIONS CoreLogic

CoreLogic® Flood Services

What Makes Us Different?

Banks, mortgage companies, credit unions, community lenders, and servicers face unprecedented regulatory oversight. To successfully navigate this environment, establishing and maintaining the right flood vendor relationship is critical.

- Commitment to Compliance
- Dedication to Quality
- Ongoing Risk Management Focus

Our Flood solutions are based on these key seven pillars:

Portfolio Services

- Client education best practices
- Servicing system expertise
- Connection to clients
- Advanced technical skills

Information Technology

- Collaborate with the business
- Maintain integrations, ordering & delivery platforms
- Data security
- Client audits / SOX reporting
- Respond to client needs

Quality Assurance

Compliance

• FDPA training

• Regulatory expertise

• Industry influence

• Client engagement

• Industry thought leadership

- Robust quality program
- Consistently outperform established metrics
- Overall and targeted audits
- Health of the database

Client Account Support

- Client education
- Contracting through fulfillment & on-going maintenance
- Voice of the Customer
- Client reporting
- Tenured call center staff

Dispute Resolution

- Client education
- Regulatory knowledge
- Leading industry experience
- Advanced technical skills

Operational Excellence

- Automation focused
- Lean processes
- Knowledge of client needs
- Next-Day Notification
